

# BEDFIN™

SIGNAGE WITHOUT SACRIFICE

Bedfin mobile signage systems are unlike any other.

## interchangeable message panel

Bedfin sign panels are quickly and easily swapped out for new ones to keep your marking fresh.

## never rusts

Bedfin is built to last. It's made from light weight aluminum, and with all stainless fasteners, Bedfin will never stain your vehicle.

## looks awesome

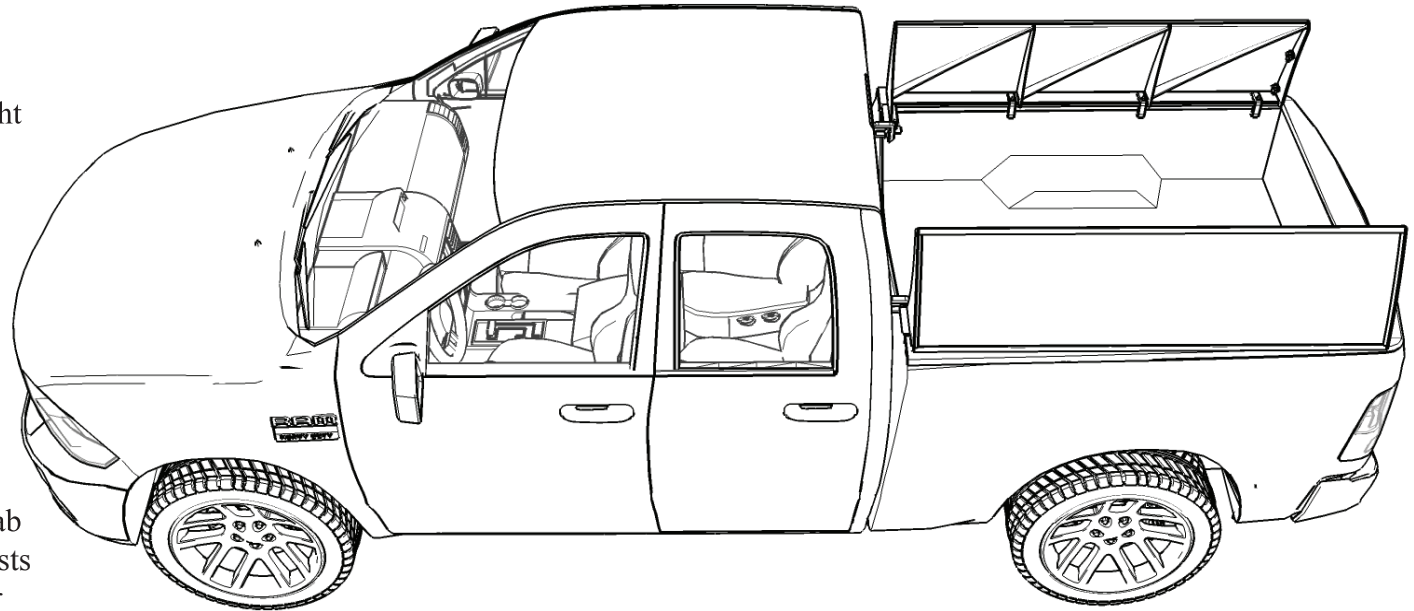

Bedfin is cambered to complement the cab of your truck. Its black wrinkle coat resists scuffs and provides a clean solid look for years and years.

## hauling & visibility

Bedfin mounts to the bed's side rails, leaving the bed completely free to haul loads. Vision from your rear view mirror is unobstructed.

## simple & universal install

On most full size pickup trucks, installation and removal only takes about 10 minutes. Since Bedfin is mounted using heavy duty clamps, there is no drilling and no power tools required.

Be creative  
Be bold  
Be remembered
